The Edison Portland Cement Company was a venture by Thomas Edison that helped to improve the Portland cement industry. He decided to set up his own cement company, founding it in New Village, NJ in 1899, and went on to supply the concrete for the construction of Yankee Stadium which hosted the Yankees baseball team starting in 1923. The road numbers on the cars reflect those dates. The gray hopper features the orange circle Edison graphic and the tuscan hopper features the script Edison graphic. These 100% Lionel made and decorated cars are molded, decorated, and assembled in the USA. The cars feature die-cast metal trucks. To order online go to [www.METCA.org](http://www.METCA.org)
