

# Long Island & Pennsylvania Milk Reefer Order Form

Metropolitan Division TCA

Prototype Artwork Shown  
actual graphics may vary

“The Standard Railroad of the World”, the Pennsylvania Railroad, and its sister RR, the Long Island, had a long history of hauling milk in reefer cars. Long Island had dedicated milk reefers while the Pennsy used standard freight cars. Our Lionel Scale Milk Reefers feature a prototypically correct road number on the Long Island car and plausible graphics on the PRR car (we were unable to find a prototype photo). Cars feature die-cast trucks and internal simulated glass lined milk storage tanks which can be seen when removing the roof. Please, do not delay; order today. You can also order online and pay with your credit card or PayPal. Go to [www.METCA.org](http://www.METCA.org) Order now. **First Come, First Served.**

**Already in production. Quantities are fixed. Limited reservations remain.**

First Come-First Served. **Only limited quantities will be made.** Order early, avoid disappointment.

All checks or money orders must be in U.S. funds. **Make checks payable to METCA.**
